Description

This is where you can type in a scope of work description for the services in your proposal. See an example below:

SOIL CONDITIONS:

My Paving Company assumes no responsibility for any unusual soil conditions encountered that are not specifically referred to in this proposal. Also, My Paving Company assumes no responsibility for the excavation, removal or disposal of any contaminated soils encountered during any excavation for the Customer. The Customer will pay any extra cost for such conditions incurred by My Paving Company.

TREE ROOTS:

Contractor shall not be responsible for any damage to trees occasioned by the removal of tree(s) or tree roots in preparing the site.

UNDERGROUND STRUCTURES:

It is the Customer's responsibility to advise contractor of the existence and location of all underground structures such as sewers, water lines, gas lines, etc., which might be encountered by My Paving Company in the performance of its work. My Paving Company shall be deemed to have notice of the existence of only those structures specifically referred to in this proposal and of the location thereof as indicated in this proposal. If a condition develops in the performance of My Paving Company's work where the identity or location of the underground structures varies from those specified herein, any extra cost incurred thereby in moving, protecting or covering same, or otherwise, shall be borne by the Customer.

PROPERTY LINES:

The Customer shall establish and designate property lines, and shall be obligated to pay for work performed as ordered in the event the property lines established and designated by Customer trespass on other property. Also, the Customer shall be responsible for any damages caused hereby to the owner of any property encroached on by work specified in this proposal.

SUB GRADES:

No material shall be placed on a wet, unstable or frozen subgrade. A suitable subgrade is a condition precedent to the requirement of performance of this contract.

MINIMUM GRADE:

We reserve the right to refuse to construct a pavement unless minimum grades of 1% are possible for surface drainage. If construction is performed with less than a minimum grade of 1%, it is understood that waterponding may occur and that there is no warranty attached to the work as to satisfactory surface drainage. Depressions over $\frac{3}{4}$ " can be filled.
